Des Moines Laboratory

Notification Date: November 13, 2024

Lyme Testing Update

MercyOne Des Moines Laboratory will not be going live with Lyme IgG, Lyme IgM, and Lyme Total on November 11, 2024, as originally planned. Clients may continue to order Lyme G and Lyme M- with confirmatory Western Blot testing sent out as required- until further notice.

Reason: This is because we have not received our Lyme validation kit.

Thank you for choosing MercyOne Des Moines Laboratory.
