

2021 Community Health Needs Assessment
Genesis Medical Center, Aledo

Approved by the Community Benefit Advisory Committee on October 21, 2021;
revised and adopted by the Board of Directors on June 1, 2023

Executive Summary

INTRODUCTION

This Community Health Needs Assessment (CHNA) was conducted on behalf of Genesis Medical Center –Aledo. This CHNA report yields information specific to the community, allowing for independent determination of health priorities.

Genesis Medical Center, Aledo (GMC-Aledo) has served Mercer County and surrounding communities with compassionate, high quality care since 1950. Throughout the years, the hospital has successfully responded to an evolving health care delivery system. GMC-Aledo is a nonprofit, charitable organization governed by the Genesis Health System board of trustees. As a member of Genesis Health System, GMC-Aledo patients have access to extended services that a community hospital otherwise may not provide. The hospital is accredited by The Joint Commission (TJC) which ensures that high standards of patient care are met.

Community Definition

The community defined for this assessment is Mercer County in Illinois. A demographic description of the targeted population can be found in the first set of tables of the “Detailed Health Indicators” section of this report.

PRIOR CHNA IMPACT

Since the 2018 CHNA, GMC-Aledo has taken several steps to improving the health of the community by addressing the following needs:

Healthy Lifestyle and Behaviors Initiatives:

- Healthbeat Exercise equipment at Yogi Bear Park, Aledo
- Sponsor of Rhubarb Run 2016, 2017, 2018, 2019, and 2021
- Genesis Medical Center, Aledo employee membership at YMCA
- Farmer’s Market weekly
- 475 participants in Metabolic Syndrome Program with Genesis Philanthropy 41% of participants have reduced their risk for Met S
- Partnered with YMCA for Livestrong, Diabetes Prevention, Just Lose It and Enhanced Fitness

Access to Mental Health Information and Services:

- Mental Health summit held, which moved to the Mercer County Mental Health Consortium with 3 subgroups: Resource Directory, Support Groups, Collaborative Grant Writing. Group meets quarterly.
- Continue to seek funding for the Mental Health Action Plan through collaborations.
- Continue access to mental health services at GHG Aledo, through mental health care providers and collaboration with Mercer County Health Department for mental health navigation and care coordination.

Access to Health Care Initiatives:

- Added Advanced Practitioners to GHG Aledo
- Increased specialty
- Enhanced relationship with Eagle View FQHC
- Utilizing traditional and social media to make residents aware of health services

PROJECT OVERVIEW

Methods & Approach

To complete this CHNA, existing health-related data was collected via the online Community Commons Community Health Needs Assessment report tool at <http://www.communitycommons.org/maps-data>. This site allows for identification of 87 distinct health and social indicators at the county level, along with comparisons to state and national data. Once an indicator report was generated, relevant indicators were reviewed to determine how Mercer County compared to available state/national data. See the “Detailed Health Indicators” section of this document.

Information Gaps

Because this CHNA relies on existing datasets, it is limited in scope to those indicators currently available through database collection. It does not include a primary research component, and many important issues are unaddressed (e.g., mental health, children’s health, etc.), or only addressed minimally (e.g., access to healthcare). Another limitation is that most measures included in this assessment represent data that are several years old. Finally, given the small population of the County some results are suppressed (e.g. alcohol and tobacco data).

Community Stakeholder Input

As part of this CHNA, GMC-Aledo partnered with the Mercer County Public Health Department and sought input from public health representatives and other community stakeholders with an interest in the health of the community through a series of discussion meetings.

Organizations and sectors represented at these community stakeholder meetings include:

Private Sector: Business Owners and Representatives

Voluntary Sector: Ministerial and Non-Profit Service Agencies

Informal Sector: Foundation and Daycare

Policy Partners: Law Enforcement, Board of Health and 708 Board

Health practitioners: Home Health, Public Health, Assisted Living, Long-term Care, Primary Care, Pharmacy, Dental Care and Hospital Care

Beneficiaries: Insurance, Emergency Services, Coroner

Resource Partners: Search and Rescue, Extension Office

Public Sector: Schools and County Board

An important component to these meetings was a discussion of the primary and chronic disease needs and other health issues of uninsured persons, low-income persons, and minority groups. This qualitative input was used to further inform the prioritization process described later in this summary.

Existing Health Care Facilities & Resources

The following represent known existing health care facilities and resources that are available to respond to the health needs of the community. These lists are not exhaustive and are subject to change, but these organizations represent potential partners in improving health in Mercer County:

- Advanced Rehab & Sports Medicine
- Aledo Rehab and Healthcare (LTC)
- American Red Cross
- Brookstone of Aledo (ALC)
- Mercer County Crisis Center
- Mercer County School System
- Mercer County YMCA
- Mercer Manor (LTC)
- Eagle View Community Health System
- Mercer County Health Department
- Genesis Ambulance
- Genesis Health Group, Aledo
- Genesis Medical Center, Aledo
- Sherrard School System
- University of Illinois Extension

IDENTIFIED HEALTH NEEDS

Upon reviewing existing health indicator data (see the Detailed Health Indicators section); health needs for the community were identified to include all indicators for which either Mercer County compares unfavorably to state data, national data, or any combination thereof. These indicators were then grouped into the following health categories, which represent the identified health needs of the community:

- Access to Healthcare Services
- Socio-Economic Barriers
- Alcohol, Tobacco & Other Drugs
- Cancer
- Chronic Disease
- Heart Disease & Stroke
- Mental Health
- Nutrition, Physical Activity & Weight
- Oral Health

These health issues, and dispositions of the related health indicators, are outlined in the following table.

KEY	
IL	Compares unfavorably to statewide data
US	Compares unfavorably to national data.
N/A	Unknown: data not available or suppressed
ACCESS TO HEALTHCARE SERVICES	
	Mercer
Access to Primary Care	IL,US
Uninsured Population (Adults)	
Uninsured Population (Children)	
Uninsured Population (Total)	
Pneumonia Vaccinations (Age 65+)	N/A
Preventable Hospital Events	
Socio-Economic Barriers (Income, Housing, Education)	Mercer
Housing Cost Burden	IL
Children Eligible for Free/Reduced Price Lunch	
Children in Poverty	
Income Over \$75,000 (Family)	IL,US
Income per Capita	IL,US
Population in Poverty (200% FPL)	
Population With Associate's Level Degree or Higher	IL,US
Population With No High School Diploma	
ALCOHOL, TOBACCO & OTHER DRUGS	
	Mercer
Alcohol Consumption	N/A
Alcohol Expenditures	N/A
Tobacco Usage (Current Smokers)	N/A
Tobacco Usage (Former or Current Smokers)	IL,US
Tobacco Expenditures	N/A
Tobacco Usage (Quit Attempt)	IL,US
CANCER	
	Mercer
Cancer Mortality	IL,US
Lung Cancer Incidence	IL,US
Breast Cancer Incidence	IL,US
Colon and Rectum Cancer Incidence	IL,US
Breast Cancer Screening (Mammogram)	
Prostate Cancer	
CHRONIC DISEASE	
	Mercer
Lung Disease	IL
Asthma Prevalence	IL,US
Diabetes	IL,US
Diabetes Management (Hemoglobin A1c Test)	IL,US
HEART DISEASE & STROKE	
	Mercer
Heart Disease Mortality	IL,US
Heart Disease Prevalence	IL,US
Stroke Mortality	

High Blood Pressure Management	N/A
MENTAL HEALTH	Mercer
Mental Health Access	IL,US
Depression	IL,US
NUTRITION, PHYSICAL ACTIVITY & WEIGHT	Mercer
Food Insecurity	
Food Insecurity – Population not Eligible for	IL, US
Population With Low Food Access	IL,US
Low Income Population With Low Food Access	IL,US
SNAP-Authorized Food Store Access	
WIC-Authorized Food Store Access	US
Physical Inactivity (Adults)	IL,US
Overweight (Adults)	IL,US
Obesity (Adults)	IL,US
ORAL HEALTH	Mercer
Dental Care Access (Adults)	IL,US
Dental Care Utilization (Adults)	IL,US
Poor Dental Health (6+ Teeth Removed)	IL,US

Supportive Data

Public Health IPLAN. At least every five years, local boards of health lead a community-wide discussion with stakeholders and residents about their community’s health needs. After identifying needs in the community, the next step is to identify objectives and strategies to address those needs. This process - Illinois Project for Local Assessment of Needs (IPLAN) - is a fundamental element in statewide planning. IPLAN has more than a 20-year history in Illinois and represents local action to promote and protect the health of Illinoisans.

Recent IPLAN activities in Mercer County relate to several of the health needs identified in the quantitative data review described above. These include the following health issues:

Mental Health Disorders — Improve access to mental health care and develop resources for adolescents and families adversely affected by COVID-19.

Drug and Alcohol Use — Increase the percentage of people who receive substance use treatment in Mercer County and decrease the risk for acute binge drinking..

Access to Transportation — Create a transportation task force. Complete a needs assessment and action plan. Increase availability of local public transportation options.

COUNTY HEALTH RANKINGS <i>(shows rank among 102 Illinois counties)</i>	Mercer County
HEALTH OUTCOMES	36
Length of Life	42
Quality of Life	31

HEALTH FACTORS	34
Health Behaviors (e.g., smoking, drinking, weight)	46
Clinical Care (e.g., uninsured rate, provider ratio, preventable hospitalizations)	29
Social & Economic Factors (e.g. education, income, crime)	30
Physical Environment (e.g., air/water quality, access to health food)	57

Prioritization of Health Needs

To prioritize the CHNA findings the community, the stakeholder group reviewed the CHNA data and prioritized the identified health needs to establish which would be best addressed. The group considered several criteria in deciding which of the health needs to focus on, including the following:

Magnitude — *How many people are affected by a given health issue? How do we vary from state or national benchmarks?*

Seriousness & Impact — *To what degree does this health issue lead to death or disability, or impair quality of life? To what degree does this health issue impact other quality of life and health-related issues?*

Feasibility — *What is the likelihood of impacting this health issue, given available resources?*

Consequences of Inaction — *What is the risk of exacerbating the problem by not addressing it at the earliest opportunity?*

Community Stakeholder Input — *Was this issue identified as a need in the community stakeholder meetings? What vulnerable populations were identified?*

The community stakeholder group met on May 11, 2021 to review the data and discuss the opportunities for improvement. The committee also reviewed the 2018 plan and progress to date on the issues identified in 2018. The committee agreed to keep some of the same key areas with exploration of cancer in access to health care.

- 1. Nutrition, Physical Activity & Weight to reduce Chronic Disease**
- 2. Mental Health and Substance Abuse**
- 3. Access to Health Care including cancer screenings**

Goals:

1. Mercer County residents will support, promote, and implement practices as it relates to healthy behaviors and wellbeing of individuals and families to reduce chronic disease
2. Mercer County will increase community access to mental health and substance abuse information, programs, resources and services
3. Ensure equal access to health care for all and encourage early detection of cancer through screenings

The remaining identified health needs were not deemed as significant, and a priority for these was not established for GMC-Aledo.

Environmental Health

Injury

Screening and Immunizations

STDs

Maternal/Infant Health & Family Planning

PUBLIC DISSEMINATION

This Community Health Needs Assessment will be made available to the public on the websites of the individual hospital facilities at www.genesishealth.com/community and <http://www.genesishealth.com/aledo/about-us/community-benefit/>

These sites:

- Inform readers that the CHNA Report is available and provides instructions for downloading it;
- Offers the CHNA Report document in a format that, when accessed, downloaded, viewed, and printed in hard copy, exactly reproduces the image of the report;
- Grants access to download, view, and print the document without special computer hardware or software required for that format (other than software that is readily available to members of the public without payment of any fee) and without payment of a fee to the hospital organization or facility or to another entity maintaining the website.

Each hospital facility will provide any individual requesting a copy of the written report with the direct website address, or URL, where the document can be accessed. Each will also maintain at its facilities a hardcopy of the CHNA report that may be viewed by any who request.

Written comments can be submitted at the following address:

Genesis Medical Center, Aledo

Demographics

Total Population

A total of 15,693 people live in the 561.20 square mile report area defined for this assessment according to the U.S. Census Bureau American Community Survey 2014-18 5-year estimates. The population density for this area, estimated at 27.96 persons per square mile, is less than the national average population density of 91.42 persons per square mile.

Report Area	Total Population	Total Land Area (Square Miles)	Population Density (Per Square Mile)
Mercer County, IL	15,693	561.20	27.96
Illinois	12,821,497	55,517.13	230.95
United States	322,903,030	3,532,068.58	91.42

Change in Total Population

According to the United States Census Bureau Decennial Census, between 2000 and 2010 the population in the report area fell by -523 persons, a change of -3.08%. A significant positive or negative shift in total population over time impacts healthcare providers and the utilization of community resources.

Report Area	Total Population, 2000 Census	Total Population, 2010 Census	Population Change, 2000-2010	Population Change, 2000-2010, Percent

Families with Children

According to the most recent American Community Survey estimates, 28.70% of all occupied households in the report area are family households with one or more child(ren) under the age of 18. As [defined](#) by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

Population in Limited English Households

This indicator reports the percentage of the population aged 5 and older living in Limited English speaking households. A “Limited English speaking household” is one in which no member 14 years old and over 18 speaks only English at home or 0.12% speaks a language other than English at home and speaks English “Very well.” This indicator is significant as it identifies households and populations that may need English-language assistance.

Report Area	Total Population Age 5+	Linguistically Isolated Population	Linguistically Isolated Population, Percent
Mercer County, IL	14,909	18	0.12%
Illinois	12,044,540	507,948	4.22%

Population with Limited English Proficiency

This indicator reports the percentage of the population aged 5 and older who speak a language other than English at home and speak English less than "very well." This indicator is relevant because an inability to speak English well creates barriers to **healthcare access, provider communications, and health literacy/education.**

Report Area	Population Age 5+	Population Age 5+ with Limited English Proficiency	Population Age 5+ with Limited English Proficiency, Percent

Population Geographic Mobility

This indicator reports information about population in-migration by assessing changes in residence within a one year period. Of the 15,579 persons residing in the report area, an estimated 4.74% relocated to the area, according to the latest American Community Survey 5-year estimates. Persons who moved to a new household from outside of their current county of residence, from outside their state of residence, or from abroad are considered part of the in-migrated population. Persons who moved to a new household from a different household within their current county of residence are not included.

Foreign-Born Population

This indicator reports the percentage of the population that is foreign-born. The foreign-born population includes anyone who was not a U.S. citizen or a U.S. national at birth. This includes any non-citizens, as well as persons born outside of the U.S. who have become naturalized citizens. The native U.S. population includes any person born in the United States, Puerto Rico, a U.S. Island Area (such as Guam), or abroad of American (U.S. citizen) parent or parents. The latest figures from the U.S. Census Bureau show that 191 persons in the report area are of foreign birth, which represents 1.22% of the report area population. This percentage is less than the national average of 13.48%.

Urban and Rural Population

This indicator reports the percentage of population living in urban and rural areas. Urban areas are identified using population density, count, and size thresholds. Urban areas also include territory with a high degree of impervious surface (development). Rural areas are all areas that are not urban. Of the report areas 16,434 population, 3,655 or 22.24% of the population is classified urban while 12,779 or 77.76% is rural.

Social & Economic Factors

Children Eligible for Free/Reduced Price Lunch

Free or reduced price lunches are served to qualifying students in families with income between under 185 percent (reduced price) or under 130% (free lunch) of the US federal poverty threshold as part of the federal National School Lunch Program (NSLP).

Out of 2,058 total public school students in the report area, 742 were eligible for the free or reduced price lunch program in the latest report year. This represents 36.1% of public school students, which is lower than the state average of 48.7%.

Head Start

Head Start is a program designed to help children from birth to age five who come from families at or below poverty level. The program's goal is to help children become ready for kindergarten while also providing the needed requirements to thrive, including health care and food support.

This indicator reports the number and rate of Head Start program facilities per 10,000 children under age 5. Head Start facility data is acquired from the US Department of Health and Human Services (HHS) 2018 Head Start locator. Population data is from the 2010 US Decennial Census. The report area has a total 1 Head Start programs with a rate of 10.37 per 10,000 children under 5 years old.

Report Area	Children Under Age 5	Total Head Start Programs	Head Start Programs, Rate (Per 10,000 Children)

High School Graduation Rate (EdFacts)

The adjusted cohort graduation rate (ACGR) is a graduation metric that follows a “cohort” of first-time 9th graders in a particular school year, and adjust this number by adding any students who transfer into the cohort after 9th grade and subtracting any students who transfer out, emigrate to another country, or pass away. The ACGR is the percentage of the students in this cohort who graduate within four years. In the report area, the adjusted cohort graduation rate was 91.9% during the most recently reported school year. Students in the report area performed better than the state, which had an ACGR of 84.8%.

Report Area	Adjusted Student Cohort	Number of Diplomas Issued	Cohort Graduation Rate
Mercer County, IL	186	171	91.9%
Illinois	90,008	76,312	84.8%
United States	3,180,487	2,778,988	87.4%

High School Graduation Rate by Student Race and Ethnicity

The table and chart below display local, state, and national variation in cohort graduation rates by student race and ethnicity. Note: Data are suppressed for some school districts for population groups when the “universe” population falls below a certain threshold. County, state, and national summaries are aggregates of district level data and may not represent all students when

suppression has occurred .

Housing Cost Burden (30%)

This indicator reports the percentage of the households where housing costs exceed 30% of total household income. This indicator provides information on the cost of monthly housing expenses for owners and renters. The information offers a measure of housing affordability and excessive shelter costs. The data also serve to aid in the development of housing programs to meet the needs of people at different economic levels. Of the 6,624 total households in the report area, 1,126 or 17.00% of the population live in cost burdened households.

Report Area	Total Households	Cost Burdened Households (Housing Costs Exceed 30% of Income)	Cost Burdened Households, Percent

Income - Families Earning Over \$75,000

In the report area, 46.01%, or 2,070 families report a total annual income of \$75,000 or greater. Total income includes all reported income from wages and salaries as well as income from self-employment, interest or dividends, public assistance, retirement, and other sources. As [defined](#) by the US Census Bureau, a family household is any housing unit in which the householder is living with one or more individuals related to him or her by birth, marriage, or adoption. A non-family household is any household occupied by the householder alone, or by the householder and one or more unrelated individuals.

Report Area	Total Families	Families with Income Over \$75,000	Percent Families with Income Over \$75,000

Income - Inequality (GINI Index)

This indicator reports income inequality using the Gini coefficient. Gini index values range between zero and one. A value of one indicates perfect inequality where only one house-hold has any income. A value of zero indicates perfect equality, where all households have equal income.

Index values are acquired from the 2014-18 American Community Survey and are not available for custom report areas or multi-county areas.

Insurance - Population Receiving Medicaid

This indicator reports the percentage of the population with insurance enrolled in Medicaid (or other means-tested public health insurance). This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Lack of Social or Emotional Support

This indicator reports the percentage of adults aged 18 and older who self-report that they receive insufficient social and emotional support all or most of the time. This indicator is relevant because social and emotional support is critical for navigating the challenges of daily life as well as for good mental health. Social and emotional support is also linked to educational achievement and economic stability.

Report Area	Total Population	Estimated Population Without Adequate Social / Emotional Support	Crude Percentage	Age-Adjusted Percentage
Mercer County, IL	12,742.00	No data	Suppressed	Suppressed
Illinois	9,654,603.00	1,969,539	20.40%	20.40%

Inadequate Social/Emotional Support, Percent of Adults Age 18+ by County, BRFSS 2006-12

Population Receiving SNAP Benefits (ACS)

In the report area, an estimate 664 or 10.02% households receive Supplemental Nutrition Assistance Program (SNAP) benefits. The value for the report area is less than the national average of 12.22%. This indicator is relevant because it assesses vulnerable populations which are more likely to have multiple health access, health status, and social support needs; when combined with poverty data, providers can use this measure to identify gaps in eligibility and enrollment.

Violent Crime

This indicator reports information about violent crime offenses reported by law enforcement. In the report area, 15 violent crimes occurred during the 2014-16 three year period. The violent crime rate of 95.7 which is lower than the statewide rate of 406.1. Violent crime includes homicide, rape, robbery, and aggravated assault.

Report Area	Violent Crimes	Violent Crime Rate (Per 100,000 Pop.)

Physical Environment

Air Quality - Ozone

Within the report area, 0, or 0.00% of days exceeded the emission standard of 75 parts per billion (ppb). This indicator reports the percentage of days per year with Ozone (O3) levels above the National Ambient Air Quality Standard of 75 parts per billion (ppb). Figures are calculated using data collected by monitoring stations and modeled to include census tracts where no monitoring stations exist. This indicator is relevant because poor air quality contributes to respiratory issues and overall poor health.

Report Area	Total Population	Average Daily Ambient Ozone Concentration	Number of Days Exceeding Emissions Standards	Percentage of Days Exceeding Standards, Crude Average	Percentage of Days Exceeding Standards, Pop. Adjusted Average
Mercer County, IL	16,434	36.44	0	0.00%	0.00%

Climate & Health - Drought Severity

Drought is defined as a moisture deficit bad enough to have social, environmental or economic effects. The Drought Monitor map identifies areas of drought and labels them by intensity. D1 is the least intense level and D4 the most intense. In the report area, 5.60% of weeks during the 2017-2019 period were spent in drought (any level). An additional 30.84% of weeks were categorized spent in "abnormally dry conditions" (D0) indicating that drought could occur, or that the area is recovering from drought but are not yet back to normal.

Report Area	Time Period	Weeks in D0 (Abnormally Dry), Percent	Weeks in D1 (Moderate Drought), Percent	Weeks in D2 (Severe Drought), Percent	Weeks in D3 (Extreme Drought), Percent	Weeks in D4 (Exceptional Drought), Percent	Weeks in Drought (Any), Percent

Annual Weeks in Drought, Percent

Climate & Health - High Heat Index Days

This indicator reports the percentage of recorded weather observations with heat index values over 103 degrees Fahrenheit. The "heat index" is a single value that takes both temperature and humidity into account. The higher the heat index, the

hotter the weather feels, since sweat does not readily evaporate and cool the skin. The heat index is a better measure than air temperature alone for estimating the risk to workers from environmental heat sources.

Report Area	Total Weather Observations	Average Heat Index Value	Observations with High Heat Index Values	Observations with High Heat Index Values, Percentage
Mercer County, IL	3,650	94.78	280.00	7.67%
Illinois	362,810	95.80	31,697.00	8.70%

Food Access - Fast Food Restaurants

This indicator reports the number of fast food restaurants per 10,000 population. The prevalence of fast food restaurants provides a measure of both access to healthy food and environmental influences on dietary behaviors. Fast food restaurants are defined as limited-service establishments primarily engaged in providing food services (except snack and nonalcoholic beverage bars) where patrons generally order or select items and pay before eating.

Food Access - Food Desert Census Tracts

This indicator reports the number of neighborhoods in the report area that are within food deserts. The USDA Food Access Research Atlas defines a food desert as any neighborhood that lacks healthy food sources due to income level, distance to supermarkets, or vehicle access. The report area has a population of 7,672 living in food deserts and a total of 2 census tracts classified as food deserts by the USDA.

Food Access - Grocery Stores

Healthy dietary behaviors are supported by access to healthy foods, and Grocery Stores are a major provider of these foods. There are 0 grocery establishments in the report area, a rate of 0.00 per 10,000 population. Grocery stores are defined as supermarkets and smaller grocery stores primarily engaged in retailing a general line of food, such as canned and frozen foods; fresh fruits and vegetables; and fresh and prepared meats, fish, and poultry. Delicatessen-type establishments are also included. Convenience stores and large general merchandise stores that also retail food, such as supercenters and warehouse club stores, are excluded.

Housing - Housing Unit Age

This indicator reports, for a given geographic area, the median year in which all housing units (vacant and occupied) were first constructed. The year the structure was built provides information on the age of housing units. These data help identify new housing construction and measures the disappearance of old housing from the inventory, when used in combination with data from previous years. This data also serves to aid in the development of formulas to determine substandard housing and provide assistance in forecasting future services, such as energy consumption and fire protection. There are a total 7,420 housing units in the report area, and the median year built is 1958.

Housing - LIHTC

The Low Income Housing Tax Credit (LIHTC) program gives State and local LIHTC-allocating agencies the equivalent of nearly \$8 billion in annual budget authority to issue tax credits for the acquisition, rehabilitation, or new construction of rental housing targeted to lower-income households. This indicator reports the total number of housing units benefiting from Low Income Housing Tax Credits.

Report Area	LIHTC Properties	LIHTC Units

Housing - Mortgage Lending

Lending institutions must report all loans for home purchases, home improvements, and mortgage refinancing based on the Home Mortgage Disclosure Act (HMDA) of 1975. This indicator displays information derived from the 2014 HMDA loan-level data files. Within the report area there are 351 home loan originations with an approval rate of 56.16% percent.

Report Area	Total Population (2010)	Home Loan Originations	Home Loans Originations, Approval Rate	Home Loan Originations, Rate per 10,000 Population
Mercer County, IL	16,434	351	56.16%	213.58

[View larger map](#)

Housing - Substandard Housing

This indicator reports the number and percentage of owner- and renter-occupied housing units having at least one of the following conditions: 1) lacking complete plumbing facilities, 2) lacking complete kitchen facilities, 3) with 1 or more occupants per room, 4) selected monthly owner costs as a percentage of household income greater than 30%, and 5) gross rent as a percentage of household income greater than 30%. Selected conditions provide information in assessing the quality of the housing inventory and its occupants. This data is used to easily identify homes where the quality of living and housing can be considered substandard. Of the 6,624 total occupied housing units in the report area, 1,130 or 17.06% have one or more substandard conditions.

Report Area	Total Occupied Housing Units	Occupied Housing Units with One or More Substandard Conditions	Occupied Housing Units with One or More Substandard Conditions, Percent
Mercer County, IL	6,624	1,130	17.06%

Substandard Housing: Number of Substandard Conditions Present

Mercer County, IL

Substandard Housing: Households Lacking Complete Plumbing Facilities

Complete plumbing facilities include: (a) hot and cold running water, (b) a flush toilet, and (c) a bathtub or shower. All three facilities must be located inside the house, apartment, or mobile home, but not necessarily in the same room. Housing units are classified as lacking complete plumbing facilities when any of the three facilities is not present.

Report Area	Occupied Housing Units	Housing Units Lacking Complete Plumbing Facilities	Housing Units Lacking Complete Plumbing Facilities, Percent
Mercer County, IL	6,624	0	0.00%
Illinois	4,830,038	13,435	0.28%
United States	119,730,128	472,098	0.39%

Substandard Housing: Households Lacking Complete Plumbing Facilities

Substandard Housing: Households Lacking Complete Kitchen Facilities

A unit has complete kitchen facilities when it has all three of the following facilities: (a) a sink with a faucet, (b) a stove or range, and (c) a refrigerator. All kitchen facilities must be located in the house, apartment, or mobile home, but they need not be in the same room. A housing unit having only a microwave or portable heating equipment such as a hot plate or camping stove should not be considered as having complete kitchen facilities. An icebox is not considered to be a refrigerator.

Report Area	Occupied Housing Units	Housing Units Lacking Complete Kitchen Facilities	Housing Units Lacking Complete Kitchen Facilities, Percent
Mercer County, IL	7,420	248	3.34%
Illinois	5,347,268	159,857	2.99%
United States	136,384,292	3,867,311	2.84%

Substandard Housing: Households Lacking Complete Kitchen Facilities

Substandard Housing: Households Lacking Telephone Service

A telephone must be in working order and service available in the house, apartment, or mobile home that allows the respondent to both make and receive calls. Households that have cell-phones (no land-line) are counted as having telephone service available. Households whose service has been discontinued for nonpayment or other reasons are not counted as having telephone service available.

Housing - Vacancy Rate

This indicator reports the number and percentage of housing units that are vacant. A housing unit is considered vacant by the American Community Survey if no one is living in it at the time of interview. Units occupied at the time of interview entirely by persons who are staying two months or less and who have a more permanent residence elsewhere are considered to be temporarily occupied, and are classified as “vacant.”

Report Area	Total Housing Units	Vacant Housing Units	Vacant Housing Units, Percent

Liquor Store Access

There are 0 establishments in the report area primarily engaged in retailing packaged alcoholic beverages, such as ale, beer, wine, and liquor. The number of liquor stores per 10,000 population provides a measure of environmental influences on dietary behaviors and the accessibility of healthy foods. Note this data excludes establishments preparing and serving alcohol for consumption on premises (including bars and restaurants) or which sell alcohol as a secondary retail product (including gas stations and grocery stores).

Access to Mental Health Care Providers, Rate Per 100,000 Pop. by County, CHR 2019

Access to Primary Care

This indicator reports the number of primary care physicians per 100,000 population. Doctors classified as "primary care physicians" by the AMA include: General Family Medicine MDs and DOs, General Practice MDs and DOs, General Internal Medicine MDs and General Pediatrics MDs. Physicians age 75 and over and physicians practicing sub-specialties within the listed specialties are excluded. This indicator is relevant because a shortage of health professionals contributes to access and

health status issues.

Within the report area there are 3 primary care physicians serving a population of 15,623. This means there is a rate of 19.20 primary care physicians for every 100,000 people.

Cancer Screening - Mammogram

This indicator reports the percentage of female Medicare beneficiaries age 35 and older who had a mammogram in most recent reporting year. The American Cancer Society recommends that women age 45 to 54 should get a mammogram every

year, and women age 55 and older should get a mammogram every other year. In the latest reporting period there were 2,607 Medicare beneficiaries in the report area, and 38% of female beneficiaries age 35 or older had a mammogram in the past year. The rate in the report area was higher than the state rate of 34% during the same time period.

Report Area	Medicare Beneficiaries	Female Beneficiaries with Recent Mammogram, Percent
Mercer County, IL	2,607	38%
Illinois	1,446,658	34%
United States	33,648,235	32%

Cancer Screening - Pap Test

This indicator reports the percentage of women aged 18 and older who self-report that they have had a Pap test in the past three years. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient

provider outreach, and/or social barriers preventing utilization of services.

Report Area	Female Population Age 18+	Estimated Number with Regular Pap Test	Crude Percentage	Age-Adjusted Percentage

Cervical Cancer Screening (Past 3 Years), Percent of Women Age 18+ by County, BRFSS 2006-12

Cancer Screening - Sigmoidoscopy or Colonoscopy

This indicator reports the percentage of adults 50 and older who self-report that they have ever had a sigmoidoscopy or colonoscopy. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Diabetes Management - Hemoglobin A1c Test

This indicator reports the percentage of diabetic Medicare patients who have had a hemoglobin A1c (hA1c) test, a blood test which measures blood sugar levels, administered by a health care professional in the past year. In the report area, 236 Medicare enrollees with diabetes have had an annual exam out of 280 Medicare enrollees in the report area with diabetes, or 84.3%. This indicator is relevant because engaging in preventive behaviors allows for early detection and treatment of health problems. This indicator can also highlight a lack of access to preventive care, a lack of health knowledge, insufficient provider outreach, and/or social barriers preventing utilization of services.

Report Area	Total Medicare Enrollees	Medicare Enrollees with Diabetes	Medicare Enrollees with Diabetes with Annual Exam	Medicare Enrollees with Diabetes with Annual Exam, Percent
Mercer County, IL	2,453	280	236	84.3%

Federally Qualified Health Centers

This indicator reports the number of Federally Qualified Health Centers (FQHCs) in the community. This indicator is relevant because FQHCs are community assets that provide health care to vulnerable populations; they receive extra funding from the federal government to promote access to ambulatory care in areas designated as medically underserved.

Within the report area, there are 0 Federally Qualified Health Centers. When adjusted to a standard population, there is a rate of 0.00 Federally Qualified Health Centers for every 100,000 persons.

Report Area	Total Population (2010)	Number of Federally Qualified Health Centers	Rate of Federally Qualified Health Centers per 100,000 Population

Preventable Hospital Events

This indicator reports the preventable hospitalization rate among Medicare beneficiaries for the latest reporting period.

Preventable hospitalizations include hospital admissions for one or more of the following conditions: diabetes with short-term complications, diabetes with long-term complications, uncontrolled diabetes without complications, diabetes with lower-extremity amputation, chronic obstructive pulmonary disease, asthma, hypertension, heart failure, bacterial pneumonia, or urinary tract infection. Rates are presented per 100,000 beneficiaries. In the latest reporting period there were 2,607 Medicare beneficiaries in the report area. The preventable hospitalization rate was 4,100. The rate in the report area was lower than the state rate of 5,081 during the same time period.

Report Area	Medicare Beneficiaries	Preventable Hospitalizations, Rate per 100,000 Beneficiaries

Health Behaviors

Alcohol Consumption

This indicator reports the percentage of adults aged 18 and older who self-report heavy alcohol consumption (defined as more than two drinks per day on average for men and one drink per day on average for women). This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues, such as cirrhosis, cancers, and untreated mental and behavioral health needs.

Report Area	Population Age 18+	Estimated Adults Drinking Excessively	Excessive Drinking, Crude Percentage	Excessive Drinking, Age-Adjusted Percentage

Percentage of Adults Physically Inactive by Year

Soda Expenditures

This indicator reports soft drink consumption by census tract by estimating expenditures for carbonated beverages, as a percentage of total food-at-home expenditures. This indicator is relevant because current behaviors are determinants of future health and this indicator may illustrate a cause of significant health issues such as diabetes and obesity. Expenditures data are suppressed for single counties and single-geography custom areas. Rank data are not available custom report areas or multi-county areas.

Report Area	State Rank	Z-Score (US)	Z-Score (Within-State)	Average Expenditures (USD)	Percentage of Food-At-Home Expenditures
Mercer County, IL	82.00	1.78	2.45	Suppressed	Suppressed
Illinois	Nodata	0.13	No data	\$243.81	4.13%
United States	Nodata	No data	No data	\$236.04	4.02%

Note: This indicator is compared to the state average.

Low Birth Weight

This indicator reports the percentage of total births that are low birth weight (Under 2500g). This indicator is relevant because low birth weight infants are at high risk for health problems. This indicator can also highlight the existence of health disparities. Out of a total 1,204 live births in the report area, 69 or 5.70% were considered low birth weight.

Report Area	Total Live Births	Low Weight Births (Under 2500g)	Low Weight Births, Percent

Mortality - Cancer

This indicator reports the rate of death due to malignant neoplasm (cancer) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because cancer is a leading cause of death in the United States.

In the report area, there were 48 average annual deaths due to cancer among the total population of 15,750. The age adjusted death rate of 189.7 per every 100,000 people is greater than the state's reported rate of 162.14.

Heart Disease Mortality, Age-Adjusted Rate (Per 100,000 Pop.) by Year, 2004 through 2016

Mortality - Homicide

This indicator reports the rate of death due to assault (homicide) per 100,000 population. Figures are reported as crude rates, and as rates age-adjusted to year 2000 standard. Rates are resummarized for report areas from county level data, only where data is available. This indicator is relevant because homicide rate is a measure of poor community safety and is a leading cause of premature death. 91:greater [less] than the state's reported rate of 7.91.

Lung Disease Mortality, Age-Adjusted Rate (Per 100,000 Pop.) by Year, 2004 through 2016

Mortality - Motor Vehicle Crash

This indicator reports the rate of death due to motor vehicle crashes per 100,000 population, which include collisions with another motor vehicle, a nonmotorist, a fixed object, and a non-fixed object, an overturn, and any other non-collision. This indicator is relevant because motor vehicle crash deaths are preventable and they are a cause of premature death.

In the report area, there were 2 average annual deaths due to motor vehicle crashes among the total population of 15,750. The age adjusted death rate of -1 per every 100,000 people is less than the state's reported rate of 8.34.

Report Area	Total Population	Average Annual Deaths, 2013-2017	Crude Death Rate (Per 100,000 Pop.)	Age-Adjusted Death Rate (Per 100,000 Pop.)

Mortality - Pedestrian Motor Vehicle Crash

Motor vehicle crash deaths are preventable and are a leading cause of death among young persons. In the report area, there were 1 pedestrians killed by motor vehicles during the multi-year report period. The annual (crude) mortality rate for the report area is 2.0, which is lower than the state average of 2.2.

Note: Fatality counts are based on the location of the crash and not the decedent's residence.

Mortality - Premature Death

This indicator reports Years of Potential Life Lost (YPLL) before age 75 per 100,000 population for all causes of death, age-adjusted to the 2000 standard. YPLL measures premature death and is calculated by subtracting the age of death from the 75 year benchmark. This indicator is relevant because a measure of premature death can provide a unique and comprehensive look at overall health status.

In the report area, there were 251 premature deaths, leading to the loss of 3,028 potential years of life. The rate of years lost is 7,129 per every 100,000 people, which is greater than the state's loss rate of 6,698.

Adult Overweight by Year, 2011 through 2019

The table and chart below display trends in the percentage of adult population who were overweight (BMI 25.0-29.9) for years 2011 through 2019.

Report Area	2011	2012	2013	2014	2015	2016	2017	2018	2019
Illinois	36.8%	35.6%	35.1%	34.2%	35.0%	32.9%	34.2%	34.4%	33.7%
United States	35.3%	35.3%	35.1%	34.9%	35.1%	34.9%	34.8%	34.4%	34.5%

Note: No county data available. See data source and methodology for more details.

Adults Overweight, Percent by Race / Ethnicity

Report Area	Non-Hispanic White	Non-Hispanic Black	Non-Hispanic Other Race	Hispanic or Latino
Illinois	36.97%	31.98%	30.74%	39.62%
United States	35.85%	34.31%	31.61%	38.43%

Note: No county data available. See data source and methodology for more details.

Adults Overweight, Percent by Race / Ethnicity

Poor Dental Health

This indicator reports the percentage of adults age 18 and older who self-report that six or more of their permanent teeth have been removed due to tooth decay, gum disease, or infection. This indicator is relevant because it indicates lack of access to dental care and/or social barriers to utilization of dental services.

Report Area	Population Age 18	Adults with Poor Dental Health	Adults with Poor Dental Health, Percent
Mercer County, IL	12,754.00	2,999.00	23.5%
Illinois	9,654,603.00	1,418,280.00	14.7%
United States	235,375,690.00	36,842,620.00	15.7%

Adults with Poor Dental Health, Percent

Note: This indicator is compared to the state average.

Data Source: Centers for Disease Control and Prevention, Behavioral Risk Factor Surveillance System. Additional data analysis by CARES, 2006-10. Source geography: County
