

Patient Service Center Des Moines Laboratory

Your physician has requested laboratory testing. What now?

MercyOne has several locations for drawing blood or dropping off specimens for laboratory testing. You may choose the laboratory draw station that is most convenient for you.

To optimize your experience in our draw station, please schedule your sample collection at any of our three locations by scanning the QR code below or by visiting our website at [MercyOne.org/desmoineslab](https://www.MercyOne.org/desmoineslab).

Your provider will give an order to you or directly to the draw station. If the order is provided to you, please bring it with you at the time of the draw.

Please be prepared to present your insurance card(s) and identification card such as a driver's license, to our colleagues when you first arrive. You will also be asked to verify your name, date of birth, address and Social Security Number. We will review this information with you each time you come to our draw stations to ensure we have the correct information for filing insurance claims.

If your provider gave you special instructions for testing (e.g., to fast before your test for a certain number of hours), please inform our colleagues whether you followed those instructions.
