

Discount Percentages

Patients eligible for Financial Assistance will not be charged more than the Medicare Amounts Generally Billed (AGB) for emergency and other medically necessary care. MercyOne uses a look-back method to calculate the Medicare AGB by dividing the sum of paid Medicare claims by the total of gross charges submitted, in accordance with Internal Revenue Code Section 501(r). The Medicare AGB calculation determines the percentage for the partial charity discount. The partial charity percentages, effective July 1, 2024, for each of our facilities are listed below.

MercyOne offers uninsured patients an automatic discount. The uninsured discount percentages effective July 1, 2024, for each of our facilities are listed below.

MercyOne	Partial Charity IP %	Partial Charity OP %	Uninsured Discount %
Clinton	78.00%	78.00%	35.00%
Dubuque	75.00%	75.00%	35.00%
