

Executive health

Customized care, concierge service

MercyOne's Executive Health Program incorporates a holistic view of the whole person, their health needs and goals and provides tools, resources and ongoing support for optimal health.

Advances in care coordination, refinement in consumer and employer preferences, genomics and biomedical knowledge has created an exceptional opportunity for individuals to better engage and impact their health.

Our Executive Health Program is an easy, efficient and thorough medical evaluation focusing on total health—and all in a single visit. Our dedicated team of providers streamlines your care, managing all the details each step of the way.

EXPERIENCE UNPARALLELED HEALTH CARE SERVICES:

- Integrated approach tailored to age, gender, personal medical history and known health risk factors
- Comprehensive evaluation incorporates leading-edge health screenings, resources and technology
- Dedicated team of internal medicine physicians, exercise physiologists, registered dietitians, physical therapists, behavioral health professionals, and additional medical specialists
