I. Executive Summary

MercyOne Newton Medical Center (Skiff Medical Center) – Jasper County, IA - 2019 Community Health Needs Assessment (CHNA) Wave #3

Creating healthy communities requires a high level of mutual understanding and collaboration among community leaders. The development of this assessment brings together community health leaders and providers, along with the local residents, to research and prioritize county health needs and document community health delivery success. This health assessment will serve as the foundation for community health improvement efforts for the next three years.

<u>Jasper Co, IA</u> previous CHNA was completed in 2016. (Note: The Patient Protection and Affordable Care Act (ACA) require not-for-profit hospitals to conduct a CHNA every three years and adopt an implementation strategy to meet the needs identified by the CHNA). Wave #3 Jasper County CHNA assessment began January 2019 and was facilitated / created by VVV Consultants, LLC (Olathe, KS) staff under the direction of Vince Vandehaar, MBA.

Important community CHNA Benefits for both the local hospital and the health department, are as follows: 1) Increases knowledge of community health needs and resources 2) Creates common understanding of the priorities of the community's health needs 3) Enhances relationships and mutual understanding between and among stakeholders 4) Provides a basis upon which community stakeholders can make decisions about how they can contribute to improving the health of the community 5) Provides rationale for current and potential funders to support efforts to improve the health of the community 6) Creates opportunities for collaboration in delivery of services to the community and 7) Provides guidance to the hospital and local health department for how they can align their services and community benefit programs to best meet needs, and 8) fulfills Hospital "Mission" to deliver quality health care.

Key CHNA Wave#3 Secondary Research Conclusions are as follows:

IOWA HEALTH RANKINGS: According to the 2018 Robert Woods Johnson County Health Rankings, Jasper County IA was ranked 68th in Health Outcomes, 40th in Health Factors, and 75th in Physical Environmental Quality out of the 99 Counties.

TAB 1. Jasper County's population is 36,966 (based on 2017), with a population per square mile (based on 2010) of 50.4 persons. Six percent (5.8%) of the population is under the age of 5 and 19% is over 65 years old. Forty-nine percent (48.8%) of Jasper County is Female. Hispanic or Latinos make up 2.2% of the population and there are 2.2% of Jasper County citizens that speak a language other than English at home. In Jasper County, children in single parent households make up 29%. There are 2,693 Veterans living in Jasper County.

TAB 2. The per capita income in Jasper County is \$27,214, and 9% of the population in poverty. There is a severe housing problem of 12%. There are 2,857 total firms (based on 2012) in Jasper County and an unemployment rate of 3.6%. Food insecurity is at 12%, and limited access to a store (healthy foods) at 4%. Thirty-four percent of individuals have a long commute to work.

TAB 3. Children eligible for a free or reduced-price lunch is at 40% and 93.1% of students graduate high school while 18.1% of students get their bachelor's degree or higher in Jasper County. There is one full-time school nurse in each school district: Newton, Lynnville-Sully and Colfax-Mingo.

TAB 4. The percent of births where prenatal care started in the first trimester is 84% and 8.3% of births are premature. Thirty-three percent of births in Jasper County occur to unmarried women. Births where mothers have smoked during the pregnancy is at high at 25.6% and the percent of babies up to 2 years old that receive vaccines is 64%.

TAB 5. There is one primary care physician per 2,460 people in Jasper County. Patients who gave their hospital a rating of 9 or 10 out 10 are 76% and the average time spent in the ER is 48 minutes.

TAB 6. Medicare population getting treated for depression in Jasper County is 14%. There are 3.2 days out of the year that are poor mental health days. The age-adjusted suicide mortality rate (per 100K) is 15.6. Jasper County has a 60.2 opioid prescription rate out of 100 prescriptions written in 2017.

TAB 7. Thirty-two percent of adults in Jasper County are obese (based on 2014), with 27% of the population physically inactive. 20% of adults drink excessively and 15% smoke. Hypertension risk is at 46.7%, while Hyperlipidemia is at 39.9%. Osteoporosis is 5.1% while Heart Failure (9.8%) and Chronic Kidney Disease (12.4%) are lower than the comparative norm.

TAB 8. The adult uninsured rate for Jasper County is 5%.

TAB 9. The life expectancy rate in Jasper County is 77.7 for Males and 81.9 for Females. Heart Disease Mortality rate (per 100K) is 156.6 and the Cancer Mortality rate is at 175.8. The age-adjusted Chronic Lower Respiratory Morality rate is at 43.8, and alcohol-impaired driving deaths are lower than the norm, at 12% in Jasper County.

TAB 10. Eighty-one percent of Jasper County has access to exercise opportunities and as high as 91% monitor diabetes. 66% of women in Jasper County get annual mammography screenings (based on 2014).

Key 2018 Community Feedback Conclusions: Stakeholder feedback from residents, community leaders and providers (N=200) provided the following community insights via an online perception survey:

- Using a Likert scale, 60% of Jasper County stakeholders would rate the overall quality of healthcare delivery in their community as either Very Good or Good.
- Jasper County stakeholders are satisfied with the following services: Ambulance Services, Chiropractors, Eye Doctors, Outpatient Services, Pharmacy, Public Health and School Nurses.
- When considering past CHNA needs: Mental health / behaviors, substance abuse, violent / abusive behaviors, child abuse / neglect, and child obesity came up.

II. Methodology

[VVV Consultants LLC]

II. Methodology

a) CHNA Scope and Purpose

The federal Patient Protection and Affordable Care Act (ACA) requires that each registered 501(c)3 hospital conduct a Community Health Needs Assessment (CHNA) at least once every three years and adopt a strategy to meet community health needs. Any hospital who has filed a 990 is required to conduct a CHNA. IRS Notice 2011-52 was released in late fall of 2011 to give notice and request comments.

JOB #1: Meet/Report IRS 990 Required Documentation

- 1. A <u>description of the community served</u> by the facility and how the community was determined;
- 2. A description of the process and methods used to conduct the CHNA;
- 3. The <u>identity of any and all organizations</u> with which the organization collaborated and third parties that it engaged to assist with the CHNA;
- **4.** A <u>description of how</u> the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications;
- **5.** A <u>prioritized description of all of the community needs</u> identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and
- **6.** A <u>description of the existing health care facilities and other resources within the community</u> available to meet the needs identified through the CHNA.

Section 501(r) provides that a CHNA must take into account input from persons who represent the broad interests of the community served by the hospital facility, including individuals with special knowledge of or expertise in public health. Under the Notice, the persons consulted must also include: Government agencies with current information relevant to the health needs of the community and representatives or members in the community that are medically underserved, low-income, minority populations, and populations with chronic disease needs. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc.).

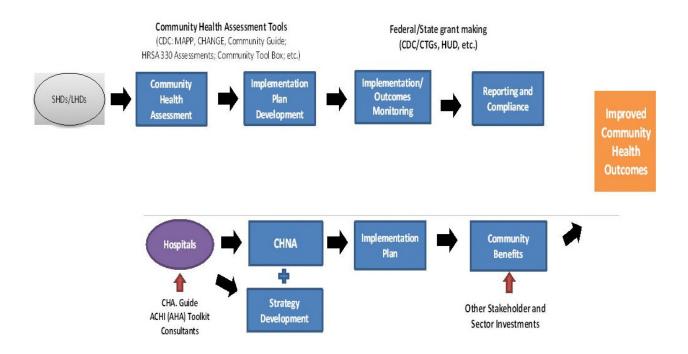

JOB #2: Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for **making a CHNA** "widely available to the **public**" after the rules currently in effect for Form 990. Accordingly, an organization would make a **facility's written report** widely available by posting the final report on its website either in the form of (1) the report itself, in a readily accessible format or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

JOB #3: Adopt an Implementation Strategy by Hospital

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

Great emphasis has been given to work hand-in-hand with leaders from hospitals, the state health department and the local health department. A common approach has been adopted to create the CHNA, leading to aligned implementation plans and community reporting.

IRS Notice 2011-52 Overview

Notice and Request for Comments Regarding the Community Health Needs Assessment Requirements for Tax-exempt Hospitals

Applicability of CHNA Requirements to "Hospital Organizations"

The CHNA requirements apply to "hospital organizations," which are defined in Section 501(r) to include (1) organizations that operate one or more state-licensed hospital facilities, and (2) any other organization that the Treasury Secretary determines is providing hospital care as its principal function or basis for exemption.

How and When to Conduct a CHNA

Under Section 501(r), a hospital organization is required to conduct a CHNA for each of its hospital facilities once every three taxable years. The CHNA must take into account input from persons representing the community served by the hospital facility and must be made widely available to the public. The CHNA requirements are effective for taxable years beginning after March 23, 2012. As a result, a hospital organization with a June 30 fiscal year end must conduct an initial CHNA for each of its hospital facilities by June 30, 2013, either during the fiscal year ending June 30, 2013 or during either of the two previous fiscal years.

Determining the Community Served

A CHNA must identify and assess the health needs of the **community served** by the hospital facility. Although the Notice suggests that geographic location should be the primary basis for defining the community served, it provides that the organization may also take into account the target populations served by the facility (e.g., children, women, or the aged) and/or the facility's principal functions (e.g., specialty area or targeted disease). A hospital organization, however, will not be permitted to define the community served in a way that would effectively circumvent the CHNA requirements (e.g., by excluding medically underserved populations, low-income persons, minority groups, or those with chronic disease needs).

Persons Representing the Community Served

Section 501(r) provides that a CHNA must take into account input from **persons who represent the broad interests of the community** served by the hospital facility, including individuals <u>with special knowledge of or expertise in public health</u>. Under the Notice, the persons consulted must also include: (1) government agencies with current information relevant to the health needs of the community and (2) representatives or members of medically underserved, low-income, and minority populations, and populations with chronic disease needs, in the community. In addition, a hospital organization may seek input from other individuals and organizations located in or serving the hospital facility's defined community (e.g., health care consumer advocates, academic experts, private businesses, health insurance and managed care organizations, etc).

Required Documentation

The Notice provides that a hospital organization will be required to separately document the CHNA for each of its hospital facilities in a **written report** that includes the following information: 1) a description of the community served by the facility and how the community was determined; 2) a description of the process and methods used to conduct the CHNA; 3) the identity of any and all organizations with which the organization collaborated and third parties that it engaged to assist with the CHNA; 4) a description of how the organization considered the input of persons representing the community (e.g., through meetings, focus groups, interviews, etc.), who those persons are, and their qualifications; 5) a prioritized description of all of the community needs identified by the CHNA and an explanation of the process and criteria used in prioritizing such needs; and 6) a description of the existing health care facilities and other resources within the community available to meet the needs identified through the CHNA.

Making a CHNA Widely Available to the Public

The Notice provides that a CHNA will be considered to be "conducted" in the taxable year that the written report of the CHNA findings is made widely available to the public. The Notice also indicates that the IRS intends to pattern its rules for making a CHNA "widely available to the public" after the rules currently in effect for Forms 990. Accordingly, an organization would make a facility's written report widely available by posting on its website either (1) the report itself, in a readily accessible format, or (2) a link to another organization's website, along with instructions for accessing the report on that website. The Notice clarifies that an organization must post the CHNA for each facility until the date on which its subsequent CHNA for that facility is posted.

How and When to Adopt an Implementation Strategy

Section 501(r) requires a hospital organization to adopt an implementation strategy to meet the needs identified through each CHNA. The Notice defines an "implementation strategy" as a written plan that addresses each of the needs identified in a CHNA by either (1) describing how the facility plans to meet the health need, or (2) identifying the health need as one that the facility does not intend to meet and explaining why the facility does not intend to meet it. A hospital organization may develop an implementation strategy in collaboration with other organizations, which must be identified in the implementation strategy. As with the CHNA, a hospital organization that operates multiple hospital facilities must have a separate written implementation strategy for each of its facilities.

<u>Under the Notice, an implementation strategy is considered to be "adopted" on the date the strategy is approved by the organization's board of directors or by a committee of the board or other parties legally authorized by the board to act on its behalf. Further, the formal adoption of the implementation strategy must occur by the end of the same taxable year in which the written report of the CHNA findings was made available to the public. For hospital organizations with a June 30 fiscal year end, that effectively means that the organization must complete and appropriately post its first CHNA no later than its fiscal year ending June 30, 2013, and formally adopt a related implementation strategy by the end of the same tax year. This final requirement may come as a surprise to many charitable hospitals, considering Section 501(r) contains no deadline for the adoption of the implementation strategy.</u>

IRS and Treasury Finalize Patient Protection Rules for Tax-Exempt Hospitals ACCOUNTING TODAY 1/2/15

The Internal Revenue Service and the Treasury Department have issued **final regulations** under the Affordable Care Act to protect patients in tax-exempt hospitals from aggressive debt collection practices and to provide other rules for charitable hospitals.

Under the **final regulations**, each Section 501(c)(3) hospital organization is required to meet four general requirements on a facility-by-facility basis: establish written financial assistance and emergency medical care policies; limit the amounts charged for emergency or other medically necessary care to individuals eligible for assistance under the hospital's financial assistance policy; make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy before engaging in extraordinary collection actions against the individual; and conduct a community health needs assessment, or CHNA, and adopt an implementation strategy at least once every three years. The first three requirements are effective for tax years beginning after March 23, 2010 and the CHNA requirements are effective for tax years beginning after March 23, 2012.

The ACA also added a new Section 4959, which imposes an excise tax for failure to meet the CHNA requirements, and added reporting requirements. These final regulations provide guidance on the entities that must meet these requirements, the reporting obligations relating to these requirements and the consequences for failing to satisfy the requirements. "Charitable hospitals represent more than half of the nation's hospitals and play a key role in improving the health of the communities they serve," wrote Emily McMahon, Deputy Assistant Secretary for Tax Policy at the U.S. Department of the Treasury, in a blog post Monday explaining the requirements. "But reports that some charitable hospitals have used aggressive debt collection practices, including allowing debt collectors to pursue collections in emergency rooms, have highlighted the need for clear rules to protect patients. For hospitals to be tax-exempt, they should be held to a higher standard. That is why the Affordable Care Act included additional consumer protection requirements for charitable hospitals, so that patients are protected from abusive collections practices and have access to information about financial assistance at all tax-exempt hospitals."

She noted that as a condition of their tax-exempt status, charitable hospitals must take an active role in improving the health of the communities they serve, establish billing and collections protections for patients eligible for financial assistance, and provide patients with the information they need to apply for such assistance. "These final rules adopt the same framework of proposed regulations but simplify the compliance process for charitable hospitals, while continuing to provide meaningful guidance on protections for patients and requirements to assess community health needs," she added.

Under the new rules, hospitals cannot charge individuals eligible for financial assistance more for emergency or other medically necessary care than the amounts generally billed to patients with insurance (including Medicare, Medicaid, or private commercial insurance). In addition, every tax-exempt hospital must establish and widely publicize a financial assistance policy that clearly describes to patients the eligibility criteria for obtaining financial assistance and the method for applying for financial assistance.

Charitable hospitals are also prohibited from engaging in certain collection methods (for example, reporting a debt to a credit agency or garnishing wages) until they make reasonable efforts to determine whether an individual is eligible for assistance under the hospital's financial assistance policy.

In addition, each charitable hospital needs to conduct and publish a community health needs assessment at least once every three years and disclose on the tax form that it files on an annual basis the steps it is taking to address the health needs identified in the assessment.

Many of the requirements have been in place since the Affordable Care Act passed in 2010, but in response to comments on the proposed regulations, the final rules also expand access to translations for patients, by lowering the threshold for having translations of financial assistance policies available from 10 percent of the community served as proposed, to five percent of the community served or population expected to be encountered by the hospital facility, or 1000 persons, whichever is less, according to McMahon. "The final rules also revise the notification requirements to maintain important protections for patients while making it easier for hospitals to comply with them," she wrote. "General notifications regarding a hospital's financial assistance policy must appear on bills and in the hospital. However, individual written and oral notifications of the hospital's financial assistance policy are now only required when a hospital plans to use extraordinary collections actions, such as reporting a debt to a credit bureau, selling the debt to a third party or garnishing wages."

While charitable hospitals must continue to make a good-faith effort to comply, the rules provide charitable hospitals with time to fully update their policies and programming to implement the changes. But if a charitable hospital fails to meet the consumer protection provisions required by the law, the hospital could have its tax-exempt status revoked. If a hospital fails to properly conduct a community health needs assessment or adopt an implementation strategy, an excise tax will apply, McMahon noted. "However, if a hospital fails to meet a requirement, but the failure is neither willful nor egregious, the hospital can correct and publicly disclose the error to have it excused, thus avoiding revocation of tax-exempt status, but the excise tax would still apply," she wrote.

CHNA NEWS: IRS Makes First Revocation of Hospital Not-for-Profit Status Under 501(r)

RICH DALY, HFMA SENIOR WRITER/EDITOR

Aug. 15, 2017—Charity-care reporting requirements under the healthcare reform law may have gone into effect only last October, but already one hospital has lost its not-for-profit tax status as a result. The first-time tax-status revocation under Affordable Care Act (ACA) 501(r) requirements applied to a "dual-status" 501(c)(3) hospital operated by a "local county governmental agency" and was confirmed by a redacted copy of the <u>tax status letter</u>, which was dated Feb. 14, 2017, and posted to the IRS website in August. Neither an IRS spokeswoman nor the redacted letter identified the hospital. <u>Loss of the 501(c)(3) exemptions eliminates the ability of hospitals to use certain employee benefit plans; likely subjects hospitals to income, property, and other taxes; bars receipt of tax-deductible contributions; and disallows use of tax-exempt bonds.</u>

The 501(r) requirements on performing community health needs assessments (CHNAs) and offering financial assistance became effective for tax years beginning on or after Dec. 29, 2015, meaning tax-exempt hospitals operating on the calendar had to be in compliance by Jan. 1, 2016, and those with a different fiscal-year end had to be in compliance by Oct. 1, 2016.

The only enforcement information previously released by the IRS was a June 2016 letter to Sen. Charles Grassley (R-lowa), which noted that at that point the IRS had completed 2,482 compliance reviews under 501(r). Additionally, 163 hospitals were assigned for "examination" as a result of those compliance reviews, but no further actions were identified.

The ACA requires the IRS to review the community-benefit activities of about 3,000 tax-exempt hospitals at least once every three years. This was the first time that Keith Hearle, president, Verité Healthcare Consulting, LLC, Alexandria, Va., had heard of an instance in which a hospital lost its not-for profit status over 501(r) requirements. He has heard of several others that incurred the \$50,000 excise tax for failing to meet the CHNA requirement.

"I would be surprised if it is a one-off," said Hearle, who has been expecting more IRS enforcement after his own reviews indicated widespread hospital vulnerability due to poor compliance.

Reasons for Revocation

Hospital 501(r) requirements include:

- Conducting a CHNA at least once every three years
- Making the CHNA publicly available on a website
- Adopting an implementation strategy to meet the needs identified in the CHNA
- Adopting a financial assistance policy and publicizing the policy, including by posting it on a website
- Limiting the amounts charged to individuals who are eligible for financial assistance
- Making individuals aware of the financial assistance policy prior to engaging in certain collection actions

Among the reasons for the IRS action against the county government hospital was its finding that the hospital did not make the CHNA widely available to the public through a website, although it had paper copies available on request. "The hospital indicated to the IRS that it might have acted on some of the recommendations included in the Implementation Strategy Report, but that a separate written implementation policy was neither drafted nor adopted," the IRS letter stated.

Officials at the small rural hospital said they lacked the staffing to comply with 501(r) requirements. They also said they "really did not need, actually have any use for, or want their tax-exempt status under Section 501(c)(3)," according to the IRS letter. The hospital believed its tax-exempt status somehow prevented its involvement in certain payment arrangements. It had maintained 501(c)(3) status "only in case any liabilities arose relating to the prior management company that had originally obtained that status from the IRS."

The IRS deemed the hospital's failure "egregious" because its leaders had "neither the will, the resources, nor the staff to follow through with the" 501(r) requirements.

Widespread Vulnerability

Industry advisers worry that many hospitals could be vulnerable to IRS enforcement—if not tax-status revocation—under the new requirements. "A lot of them just assume that what they have, in terms of policy and procedure, suffices under the final regulations and have not done a lot," said Andrew Kloeckner, a partner for Omaha-based law firm Baird Holm.

Even hospitals that have taken steps to become compliant with the requirements can face downsides, including complications with their collection efforts, which in turn can delay cash flow, Kloeckner said.

Jan Smith, a tax senior manager in Crowe Horwath's Healthcare practice, indicated that the likelihood of a similar penalty or the likelihood of this determination setting a precedent at other hospitals may be limited. This is due to the unusual position taken by the revoked hospital's officials that they didn't need or want charitable status (in addition to governmental status).

"If hospitals are making a good-faith effort to comply, I would be surprised if the IRS would revoke their tax status at this stage of 501(r) examinations," Smith said in an interview. However, she is aware of several health systems that the IRS is seeking to penalize under the CHNA tax provision.

The IRS's 501(r) compliance reviews include the agency's analysis of hospital websites and "other information designed to identify the hospitals with the highest likelihood of non-compliance," IRS Commissioner John Koskinen stated in his 2016 letter to Grassley.

Justin Lowe, senior manager with the Exempt Organizations Tax Practice at Ernst & Young, underscored that hospital websites are among the publicly available information that the IRS reviews. He urged hospitals to make sure that all required documents, including the CHNA and financial assistance policy, are on the website and easily findable. Insufficient approaches to 501(r) compliance, Kloeckner said, include instances when hospitals purchase financial assistance policy templates that are provided by a consultant and not submitted for legal review, potentially leaving audit vulnerabilities. Kloeckner also urged attention on practices and procedures outside of the policies.

<u>Small government-operated hospitals are among the most vulnerable to enforcement,</u> Hearle said, because they may not be required to file Form 990, which provides reminders about 501(r) compliance requirements. "It's a group of hospitals I'm concerned about," Hearle said.

Among the financial assistance requirements with which hospitals are most likely to struggle, Hearle said, is making available lists of physicians who are associated with the hospital and who utilize the same charity care policies.

"Patients obtaining charity care from a hospital want to find physician groups through which they can get the same charity care, as opposed to some group that doesn't offer charity care," Hearle said.

Public Health Criteria:

<u>Domain 1: Conduct and disseminate assessments focused on population health status and public health issues facing the community.</u>

Domain 1 focuses on the assessment of the health of the population in the jurisdiction served by the health department. The domain includes: systematic monitoring of health status; collection, analysis, and dissemination of data; use of data to inform public health policies, processes, and interventions; and participation in a process for the development of a shared, comprehensive health assessment of the community.

DOMAIN 1 includes 4 STANDARDS:

- **Standard 1.1 -** Participate in or Conduct a Collaborative Process Resulting in a Comprehensive Community Health Assessment
- Standard 1.2 Collect and Maintain Reliable, Comparable, and Valid Data That Provide Information on Conditions of Public Health Importance and on the Health Status of the Population
- **Standard 1.3** Analyze Public Health Data to Identify Trends in Health Problems, Environmental Public Health Hazards, and Social and Economic Factors That Affect the Public's Health
- Standard 1.4 Provide and Use the Results of Health Data Analysis to Develop Recommendations Regarding Public Health Policy, Processes, Programs, or Interventions

Required CHNA Planning Process Requirements:

- a. Participation by a wide range of community partners.
- b. Data / information provided to participants in CHNA planning process.
- c. Evidence of community / stakeholder discussions to identify issues & themes. Community definition of a "healthy community" included along with list of issues.
- d. Community assets & resources identified.
- e. A description of CHNA process used to set priority health issues.

Seven Steps of Public Health Department Accreditation (PHAB):

- 1. Pre-Application
- 2. Application
- 3. Document Selection and Submission
- 4. Site Visit
- 5. Accreditation Decision
- 6. Reports
- 7. Reaccreditation

II. Methodology

b) Collaborating CHNA Parties

Working together to improve community health takes collaboration. Listed below is an in depth profile of the local hospitals and health department CHNA partners:

MercyOne Newton Medical Center (Skiff Medical Center)

204 N. 4th Ave E. Newton, Iowa 50208 Phone: (641) 792-1273 President: Laurie Conner

ABOUT:

Skiff Medical Center is a fully owned hospital of Mercy Medical Center -- Des Moines and a member of Mercy Health Network. It is located in the city of Newton, Iowa, county seat of Jasper County. Positioned on Interstate 80, the nation's only east/west transcontinental interstate highway, Newton is about 30 miles east of the Des Moines metropolitan area.

Skiff's main campus in Newton has 48 beds and about 200,000 square feet of space. Attached to the hospital is a 50,000-square-foot medical office building containing local physician practices and the hospital's physical medicine and rehabilitation center. With 270-plus employees, Skiff is one of the largest employers in Jasper County, along with the local school system and the county government.

MISSION: The mission of Skiff Medical Center, as a member of Catholic Health Initiatives, is to nurture the healing ministry of the Church, supported by education and research. Fidelity to the Gospel urges us to emphasize human dignity and social justice as we create healthier communities.

VISION: To provide a remarkable Skiff experience to every person we are privileged to serve.

CORE VALUES: Reverence, Integrity, Compassion, Excellence

Skiff Medical Center is proud to offer a full spectrum of services, from family health services and primary care to surgery to the skilled care provided by the visiting physicians in the Skiff Specialty Clinic.

b) Collaborating CHNA Parties Continued Consultant Qualifications

VVV Consultants LLC

Company Profile: 601 N. Mahaffie, Olathe, KS 66061 (913) 302-7264

Vince Vandehaar MBA, Principal Consultant & Adjunct (913) 302-7264 wvv@vandehaarMarketing.com

Vince provides professional business consulting services to help healthcare organizations with business strategy, research and development. Specifically, Vince facilitates strategic planning, creates proven marketing plans/tactics, prepares IRS aligned community health needs assessments and conducts both qualitative and quantitative market research studies.

Vince started his consulting firm (VVV Consultants LLC) on 1/1/2009, after working for Saint Luke's Health System of Kansas City for 16 years. (Note: Saint Luke's Hospital of KC, SLHS's largest hospital, won the Malcolm Baldrige National Quality Award in March of 2003). Prior to his experience at Saint Luke's, Vince worked in the payor and insurance industry for Blue Cross and Blue Shield of Kansas City; Tillinghast, a Tower's Perrin Actuarial Consulting Firm; and Lutheran Mutual Life Insurance Company.

Vince also is an Adjunct Professor teaching BA, MBA & MHA classes part time 20% of his time at Avila, Rockhurst and/or Webster University (Strategic Planning, Marketing, MHA Capstone, Marketing Research, Sales & Social Media classes) and consults the remainder of his time.

Vince is a Malcolm Baldrige coach and a professional focus group moderator. He is actively involved in the national Society for Healthcare Strategy & Market Development (SHSMD), KHA/MHA Marketing Associations, KC Employee Benefit Professional Association, Healthcare Executives Kansas City, the American Marketing Association KC Chapter and is a SG2 advocate.

Collaborating Support:

Tessa Taylor BBA BA - VVV Consultants LLC Associate Consultant

II. Methodology

c) CHNA and Town Hall Research Process

Wave #3 Community Health Needs Assessment (CHNA) process began in January 2019 for Jasper County, Iowa to meet IRS CHNA requirements.

In January a meeting was called by Jasper Co IA to review possible CHNA collaborative options, partnering with Jasper County Health Department. Note: VVV Consultants LLC from Olathe, KS was asked to facilitate this discussion with the following agenda: VVV CHNA experience, review CHNA requirements (regulations) and discuss CHNA steps/options to meet IRS requirements and to discuss next steps. Outcomes from discussion lead to Skiff Medical Center requesting VVV Consultants LLC to complete a CHNA IRS aligned comprehensive report.

VVV CHNA Deliverables:

- Document Hospital Primary Service Area meets the 80-20 Patient Origin Rule.
- Uncover / document basic secondary research county health data, organized by 10 tabs.
- Conduct / report CHNA Community Check-in Feedback Findings (primary research).
- Conduct a Town Hall meeting to discuss with community secondary & primary data findings leading to determining (prioritizing) county health needs.
- Prepare & publish CHNA report which meets ACA requirements.

To ensure proper PSA Town Hall representation (that meets the 80-20 Patient Origin Rule), a patient origin three-year summary was generated documenting patient draw by zips as seen below:

| Hospita | al: MercyOne Newton (Skift | Area | I/O/E | Years 20 | 016-18 | |
|---------|----------------------------|--------|----------------|----------|--------|-------|
| Zip | City County ST | | 3YR TOT | ACCUM | % | |
| 50208 | NEWTON | JASPER | IA | 93,960 | 74.6% | 74.6% |
| 50054 | COLFAX | JASPER | IA | 4,900 | 78.4% | 3.9% |
| 50028 | BAXTER | JASPER | IA | 4,187 | 81.8% | 3.3% |
| 50135 | KELLOGG | JASPER | IA | 3,945 | 84.9% | 3.1% |
| 50170 | MONROE | JASPER | IA | 3,174 | 87.4% | 2.5% |
| 50232 | REASNOR | JASPER | IA | 950 | 88.2% | 0.8% |
| 50251 | SULLY | JASPER | IA | 907 | 88.9% | 0.7% |
| 50228 | PRAIRIE CITY | JASPER | IA | 794 | 89.5% | 0.6% |
| 50168 | MINGO | JASPER | IA | 728 | 90.1% | 0.6% |
| 50153 | LYNNVILLE | JASPER | IA | 365 | 90.4% | 0.3% |
| 50127 | IRA | JASPER | IA | 223 | 90.6% | 0.2% |
| 50137 | KILLDUFF | JASPER | IA | 177 | 90.7% | 0.1% |

Specific CHNA roles, responsibility and project timelines are document by the following calendar.

| | Skiff Medical Center / Jasper County IA - CHNA Work Plan | | | | | | | |
|------|--|---------------|---|--|--|--|--|--|
| | | | e #3 Project Timeline & Roles 2019 | | | | | |
| Step | Date | Lead | Task | | | | | |
| 1 | Dec 2018 | VVV | Presented CHNA Wave #3 options to IA Alliance Network. | | | | | |
| 2 | 12/5/2018 | Hosp | Selected CHNA Option C. Approved / signed VVV CHNA quote. | | | | | |
| 3 | 1/8/2019 | Both | Conduct CHNA Kickoff Conference Call (Hospital / DOH leaders). | | | | | |

| 9 | 1/25/2019 | VVV | Launch online survey to stakeholders - Due Date Friday 2/25/19. Hospital client will e-mail invite to participate to all stakeholders. Client will finalize Town Hall location / food. | | | | | |
| 10 | Jan-Feb 2019 | VVV | Assemble and complete secondary research. Find and populate 10 TABS. Create Town Hall PowerPoint for presentation. | | | | | |
| 11 | on or before 3/1/2019 | VVV / Hosp | Prepare / release PR story to local media announcing upcoming Town Hall. VVV will mock up PR release. | | | | | |
| 12 | 3/1/2019 | Hosp | Prepare and send out community Town Hall invite letter and place local advertisement. | | | | | |
| 13 | 3/15/2019 | All | Conduct Town Hall practice conference call with hospital client to review Town Hall data and flow. | | | | | |
| 14 | Tuesday March 19, 2019 (11:30 am- 1:00pm) | VVV | Conduct CHNA Town lunch session 11:30-1:00pm at Newton DMACC Conference Center- room 210 (600 North 2nd Ave West, Newton). Review & discuss basic health data, online feedback and rank health needs. | | | | | |
| 15 | Before 5/30/2019 | VVV | Complete analysis. Release draft one and seek feedback from leaders at hospital client. | | | | | |
| 16 | on or before June 1, 2019 | VVV | Produce and release final CHNA report. Hospital client will post CHNA online. | | | | | |
| 17 | TBD | TBD | Conduct hospital client Implementation Plan meeting with PSA leadership. | | | | | |
| 18 | 30 days prior to fiscal year | Hosp | Hold board meetings to discuss CHNA needs, create and adopt an Implementation Plan. Communicate CHNA plan to community. | | | | | |

To meet IRS aligned CHNA requirements and meet Public Health accreditation criteria stated earlier, a four-phase methodology was followed:

Phase I—Discovery:

Conduct a 30-minute conference call with the CHNA county health department and hospital clients. Review / confirm CHNA calendar of events, explain / coach clients to complete required participant database and schedule / organize all Phase II activities.

Phase II—Qualify Community Need:

A) Conduct secondary research to uncover the following historical community health status for the primary service area. Use Kansas Hospital Association (KHA), Vital Statistics, Robert Wood Johnson Foundation: County Health Rankings, etc. to document current state of county health organized as follows:

| TAB 1. Demographic Profile |
|--|
| TAB 2. Economic/Business Profile |
| TAB 3. Educational Profile |
| TAB 4. Maternal and Infant Health Profile |
| TAB 5. Hospitalization / Providers Profile |
| TAB 6. Behavioral Health Profile |
| TAB 7. Risk Indicators & Factors |
| TAB 8. Uninsured Profile |
| TAB 9. Mortality Profile |
| TAB 10. Preventative Quality Measures |
| |

B) Gather primary research (stakeholder feedback) to uncover public health needs, practices and perceptions for primary service areas.

Phase III—Quantify Community Need:

Conduct a 90-minute town hall meeting with required community primary service area residents. At each town hall meeting, CHNA secondary data will be reviewed, facilitated group discussion will occur and a group ranking activity to determine the most important community health needs was administered.

<u>Phase IV—Complete Data Analysis and Create Comprehensive Community Health Needs</u> Assessment:

Post CHNA report findings to meet both PHAB and IRS CHNA criteria.

After consideration of CHNA stakeholders (sponsoring county health department and hospital), the CHNA Option C was selected with the following project schedule:

| Phase I: Discovery | Jan 2019 |
|---|----------------|
| Phase II: Secondary / Primary Research | Jan – Feb 2019 |
| Phase III: Town Hall Meeting | Mar 19, 2019 |
| Phase IV: Prepare / Release CHNA report | Apr – May 2019 |

Detail CHNA Development Steps Include:

| Development Steps to Create Comprehensive | | | | | | | | |
|---|--|--|--|--|--|--|--|--|
| Commur | Community Health Needs Assessment | | | | | | | |
| Step # 1 Commitment | Determine interest level of area healthcare leaders (Hospital, Health Dept., Mental Health Centers, schools, churches, physicians etc.), prepare project quote. | | | | | | | |
| Step # 2 Planning | Prepare brief CHNA Project Work Calendar - list goals, objectives, purpose, outcome, roles, community involvement, etc. Hold community kick-off meeting. | | | | | | | |
| Step # 3 Secondary Research | Collect and report community health published facts. Gather data health practice data from published secondary research sources (i.e. census, county health records, behavioral risk factors surveillance, etc.) | | | | | | | |
| Step # 4a Primary Research - Town Hall prep | Collect community opinions. (quantitative research). Gather stakeholders / community opinions regarding community health needs and healthcare practices. | | | | | | | |
| Step # 4b Primary Research - Conduct Town Hall | Conduct "Conversation with Community" Town Hall (qualitative research). Review secondary & primary data findings. Facilitate community conversation to build consensus; discuss opinions / identify health needs. | | | | | | | |
| Steps # 5 Reporting | Prepare and present comprehensive CHNA report (to community leaders), facilitate development of CHNA Implementation Plan (actions to improve health). (Note: formal report will follow IRS Notice 2011-52 regs & PHAB requirements.) | | | | | | | |
| VVV Consultants, LLC Olathe, KS | (913) 302-7264 | | | | | | | |

Overview of Town Hall Community Priority Setting Process

Each community has a wealth of expertise to be tapped for CHNA development. For this reason, a town hall is the perfect forum to gather community insight and provide an atmosphere to objectively consensus build and prioritize county health issues.

All Town Hall priority-setting and scoring processes involve the input of key stakeholders in attendance. Individuals and organizations attending the Town Halls were critically important to the success of the CHNA. The following list outlines partners invited to Town Hall: local hospital, public health community, mental health community, free clinics, community-based clinics, service providers, local residents, community leaders, opinion leaders, school leaders, business leaders, local government, faith-based organizations and persons (or organizations serving them), people with chronic conditions, uninsured community members, low income residents and minority groups.

Jasper County, Iowa (Skiff Medical Center and Jasper County Health Department) town hall meeting was held on Tuesday, March 19th, 2019 from 11:30-1:00pm at Newton DMACC Conference Center- room 210 (600 North 2nd Ave West, Newton). Vince Vandehaar facilitated this 1 ½ hour session with sixty-seven (67) attendees. (Note: a detail roster of Town Hall attendees is listed in Section V a).

The following Town Hall agenda was conducted:

- 1. Welcome & Introductions
- 2. Review Purpose for the CHNA Town Hall & Process Roles
- Present / Review of Historical County Health Indicators (10 TABS)
- 4. Facilitate Town Hall participant discussion of data (probe health strengths / concerns). Reflect on size and seriousness of any health concerns sited and discuss current community health strengths.
- Engage Town Hall participants to rank health needs (using 4 dots to cast votes on priority issues). Tally & rank top community health concerns cited.
- 6. Close meeting by reflecting on the health needs / community voting results. Inform participants on "next steps."

At the end of each Town Hall session, VVV encouraged all community members to continue to contribute ideas to both hospital / health department leaders via e-mail or personal conversations. NOTE: To review detail Town Hall discussion content, please turn to Section V for detailed notes of session and activity card content reporting strengths & items to change or improve.

Community Health Needs Assessment (CHNA) Town Hall Discussion Agenda Opening / Introductions (10 mins) **Review CHNA Purpose and Process (10 mins) Review Current County "Health Status"** -Secondary Data by 10 TAB Categories -Review Community Feedback Research (35 mins) **IV. Collect Community Health Perspectives** -Hold Community Voting Activity -Determine Most Important Health Areas (30 mins) v. Close / Next Steps (5 mins)

I. Introductions: A Conversation with the Community

Community members and organizations invited to CHNA Town Hall

Consumers: Uninsured/underinsured people, Members of at-risk populations, Parents, caregivers and other consumers of health care in the community, and Consumer advocates.

Community leaders and groups: The hospital organization's board members, Local clergy and congregational leaders, Presidents or chairs of civic or service dube. Chamber of Commerce, veterans' organizations, Lions, Rotary, etc., Representatives from businesses — owners/CDO's of large businesses (local or large corporations with local branches, Business people emerchants (e.g., who sell tobacco, alcolo), or other drugs), Representatives from organized labor, Political, appointed and elected difficials, Foundations, United Way organizations. And other "community leaders, Foundations, United Way organizations. And other "community leaders".

Public and other organizations: Public health officials, Directors or staff of health and human service organizations, City/Community planners and development officials, Individuals with business and economic development experience, Weifard and social service agency staff, Mousing advocates - administrators of housing programs: homeless shelters, Jouricome-family housing and senior housing Education officials and staff - school superintendents, principals and teachers, Public safety officials, Staff from state and area agencies on aging, Law enforcement agencies - Chiefs of police, Local colleges and universities, Coalitions working on health or other issues.

Other providers: Physicians, Leaders in other not-for-profit health care organizations, such as hospitals, clinics, nursing homes and home-based and community-based services, Leaders from Catholic Charities and other faith-based service providers, Mental health providers, Oral health providers, Health insurers, Parish and congregational nursing programs, Other health professionals

II. Review CHNA Definition

- A Community Health Needs Assessment (CHNA) is a systematic collection, assembly, analysis, and dissemination of information about the health of the community. (NOTE: Some the data has already been collected / published by Local, State and Federal public health organizations. Some data will be collected today.)
- A CHNA's role is to identify <u>factors</u> that affect the health of a population and <u>determine the</u> <u>availability of resources</u> to adequately address those factors.

5 6

Purpose—Why Conduct a CHNA?

- To determine health-related trends and issues of the community
- To understand / evaluate health delivery programs in place.
- To meet Federal requirements both local hospital and health department
- To develop strategies to address unmet health needs (4-6 weeks after Town Hall)

III. Community Health Status

[VVV Consultants LLC]

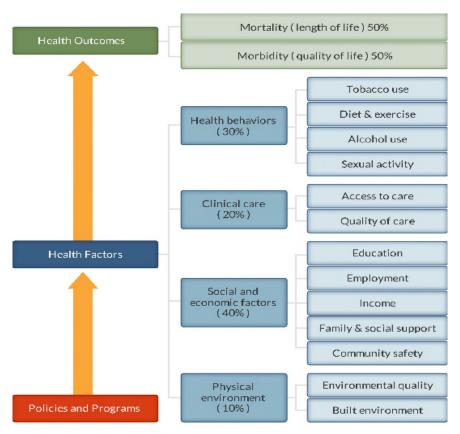

III. Community Health Status

a) Historical Health Statistics- Secondary Research

Health Status Profile

This section of the CHNA reviews published quantitative community health indicators from public health sources and results of community primary research. To produce this profile, VVV Consultants LLC staff analyzed & trended data from multiple sources. This analysis focuses on a set of published health indicators organized by ten areas of focus (10 TABS), results from the 2018 RWJ County Health Rankings and conversations from Town Hall participates. Each table published reflects a Trend column, with GREEN denoting growing/high performance indicators, YELLOW denoting minimal change/average performance indicators and RED denoting declining/low performance indicators.

Note: The Robert Wood Johnson Foundation collaborates with the University of Wisconsin Population Health Institute to release annual *County Health Rankings*. As seen below, RWJ's model use a number of health factors to rank each county.>

County Health Rankings model ©2012 UWPHI

National Research – Year 2019 RWJ Health Rankings:

| # | IA Rankings - 99 Counties | Definitions | Jasper Co IA | TREND | Rural SC IA Norm N=12 | | | |

PSA Secondary Research:

When studying community health, it's important to document health data by topical areas for primary service area (PSA). Below is a summary of key findings organized by subject area.

Tab 1 Demographic Profile

Understanding population and household make-up is vital to start CHNA evaluation.

| Tab | | Health Indicator | Jasper Co IA | Trend | State of IA | Rural SC IA Norm N=12 | Source |
|-----|----|--|-----------------|-------|-------------|--------------------------|------------------------|
| 1a | а | Population estimates, July 1, 2017, (V2017) | 36,966 | | 3,145,711 | 16,267 | People Quick Facts |
| | ın | Population, percent change - April 1, 2010 (estimates base) to July 1, 2017, (V2017) | 0.3% | | 3.2% | -1.5% | People Quick Facts |
| | С | Population per square mile, 2010 | 50.4 | | 54.5 | 29.6 | People Quick Facts |
| | d | Persons under 5 years, percent, July 1, 2017, (V2017) | 5.8% | | 6.3% | 6.3% | People Quick Facts |
| | е | Persons 65 years and over, percent, July 1, 2017, (V2017) | 19.0% | | 16.7% | 19.9% | People Quick Facts |
| | f | Female persons, percent, July 1, 2017, (V2017) | 48.8% | | 50.3% | 50.1% | People Quick Facts |
| | g | White alone, percent, July 1, 2017, (V2017) | 95.5% | | 91.1% | 96.1% | People Quick Facts |
| | ın | Black or African American alone, percent, July 1, 2017, (V2017) | 2.2% | | 3.8% | 1.1% | People Quick Facts |
| | i | Hispanic or Latino, percent, July 1, 2017, (V2017) | 2.2% | | 6.0% | 5.0% | People Quick Facts |
| | j | Foreign born persons, percent, 2013-2017 | 1.2% | | 5.0% | 3.0% | People Quick Facts |
| | k | Language other than English spoken at home, percent of persons age 5 years+, 2013-2017 | 2.2% | | 7.6% | 7.5% | People Quick Facts |
| | | Living in same house 1 year ago, percent of persons age 1 year+, 2013-2017 | 83.8% | | 84.7% | 86.2% | People Quick Facts |
| | m | Children in single-parent households, percent, 2012-2016 | 29.0% | | 29.0% | 27.1% | County Health Rankings |
| | n | Total Veterans, 2013-2017 | 2,693 | | 193,451 | 1,084 | People Quick Facts |

Tab 2 Economic Profile

Monetary resources will (at times) drive health "access" and self-care.

| Tab | | Health Indicator | Jasper Co IA | Trend | State of IA | Rural SC IA Norm N=12 | Source |
|-----|----|--|-----------------|-------|-------------|--------------------------|------------------------|
| 2 | ıa | Per capita income in past 12 months (in 2016 dollars), 2013- 2017 | \$27,214 | | \$30,063 | \$25,903 | People Quick Facts |
| | b | Persons in poverty, percent, 2015 | 9.0% | | 12.1% | 12.8% | Iowa Health Fact Book |
| | С | Total Housing units, July 1, 2017, (V2017) | 16,283 | | 1,398,016 | 7,399 | People Quick Facts |
| | d | Total Persons per household, 2013-2017 | 2.4 | | 2.4 | 2.4 | People Quick Facts |
| | е | Severe housing problems, percent, 2010-2014 | 12.0% | | 12.0% | 12.3% | County Health Rankings |
| | f | Total of All firms, 2012 | 2,857 | | 259,121 | 1,393 | People Quick Facts |
| | g | Unemployment, percent, 2016 | 3.6% | | 3.7% | 3.9% | County Health Rankings |
| | h | Food insecurity, percent, 2015 | 12.0% | | 12.0% | 12.1% | County Health Rankings |
| | i | Limited access to healthy foods, percent, 2015 | 4.0% | | 6.0% | 5.8% | County Health Rankings |
| | j | Long commute - driving alone, percent, 2012-2016 | 34.0% | | 20.0% | 25.8% | County Health Rankings |

Tab 3 Schools Health Delivery Profile

Currently, school districts are providing on-site primary health screenings.

| # | Jasper County IA Schools | Newton USD | Lynnville-Sully USD | Colfax-Mingo USD |
|---|--|--|--|--|
| 1 | Total # Public School Nurses | 1 FT RN | 1 MSN/RN | 1 FT RN |
| 2 | School Wellness Plan in place (Active) | Yes | Yes | Yes, in process of updating |
| 3 | VISION: # Screened / Referred to Prof / Seen by Professional | All students PK & K are sceened | Onsite screenings for all of the preschoolers and 2nd graders each year. 2018: 48 PK, 43 2nd graders 11 referrals total. 2019: 55 PK and 41 2nd graders +7 others with concerns, 12 referrals. | The entire elementary had their vision screened (including preschool). I personally screened K-6 and made approximately 40 referrals. 402 students |
| 4 | HEARING: # Screened / Referred to Prof / Seen by Professional | PK-5 / AEA | 243 K-5 plus 52 PK and 11 with accommodations and referrals. Preschools are done each year as well | K-5 was screened for hearing through the AEA. They are going to screen the preschool but haven't yet. 294 students |
| 5 | ORAL HEALTH: # Screened / Referred to Prof / Seen by Professional | K (I-Smile) | I-Smiles: PK 52 and K-6 Referrals. | Only Kdg and 9th grade are screened for oral health. That made a total of 113 students. 11 of those students required dental care. |
| 6 | SCOLIOSIS: # Screened / Referred to Prof / Seen by Professional | None | None | None |
| 7 | # of Students served with no identified chronic health concerns | 29/1167 with individualized health care plans | 319/515 students are without a chronic condition. | Some children with asthma (inhaler) Approx 5-8% of students have chronic health issues. |
| 8 | School has a suicide prevention program | NA | No. Our counselor is able to perform suicide assessments and refer from there. | I don't know that we have a suicide prevention program. I do know we have a process that is followed when a student is suicidal. |
| 9 | Compliance on required vaccinations (%) | 100% Compliance (1060 Elementary School students and 107 PreK kids) | All students are compliant on immunizations after hours of time chasing parents/doctors. Without a RN, this would never be accomplished!! | Our compliance with vaccinations is 100%. HOWEVER, I have several students with a religious exemption and a few with a medical exemption. |

Skiff Medical Center (MercyOne Newton Medical Center) Jasper County, IA Town Hall Tuesday 3/19/2019 11:30am -1:00pm N= 67

Children eligible for free lunch = ~50% now

Unemployment rate = \sim 3% end of 2018

More nurses are seeing patients, 3 FT Doctors in town.

Drug problems: Opioids, Meth, Heroine, Marijuana (E-cigs)

Express Care with Skiff in HyVee = ~400 patients per month

What is occurring soon: 3 Physicians retiring. Medicaid challenges. New Iowa Total Care

launching in June.

Strengths:

- Substance Abuse Coalition with Mental Health
- Access to hospital specialty clinic, urgent care, OP care, dentists, eye, PT ---have some specialists
- EMS, emergency responders
- Youth program YMCA, 4H, School and churches
- Mobile crisis response team
- Public health services
- Emergency preparedness
- Community involvement
- Resources available for health
- Prenatal care and access, OB
- Schools and teachers, library
- Nursing program and DMACC
- School nurses

Things to Improve:

- Domestic Violence/ Sexual Assault
- Suicide
- Tobacco Use
- Obesity (Exercise and Nutrition)
- Emergency Room
- HC Insurance (Education and Availability)
- Free Indoor Wellness Activity Area for Public
- Senior Care
- Dentists
- HC Transportation
- Child Care
- Health Engagement
- Homeless/Shelter
- Substance Abuse
- Single Parent support
- Hospice
- Awareness of HC services
- Specialty Docs Available (Peds, Neuro, Neph, GI, Liver)
- Family Planning/ Women's Health
- Mental Health

Wave #3 CHNA - Skiff Medical Center PSA

c) Public Notice & Requests

[VVV Consultants LLC]

Email Request: Cut & Paste Blind CC

Subject: Seek Feedback -Community Health Needs Assessment

Date 1/18/2019

Over the next three months, Skiff Medical Center (soon to be known as MercyOne Newton Medical Center) and the Jasper County Health Department will be partnering together to update the Community Health Needs Assessment (CHNA).

To accomplish this work, a short online feedback survey has been developed:

LINK: https://www.surveymonkey.com/r/JasperColA_CHNA_2019

First, please complete the CHNA online feedback survey by Friday, Feb. 22. All responses are confidential. Your feedback and suggestions regarding current community health needs are very important to collect, so that we may complete our comprehensive 2019 Community Health Needs Assessment and Implementation Plan. Vince Vandehaar, MBA, with VVV Consultants LLC, has been retained to conduct this community-wide research.

Second, please hold the date: Please plan on attending the Jasper County CHNA Town Hall working lunch meeting on Tuesday, March 19 from 11:30 a.m.- 1 p.m. at the Newton DMACC Conference Center, Room 210. DMACC is located at 600 N. 2nd Ave. W. in Newton. At this meeting, we will discuss the initial online survey results and set priorities. More meeting information will be released at the beginning of March.

Thank you in advance for your time and support in participating with this important request.

Chad Kelley, Skiff Medical Center

Becky Pryor, Jasper County Health Department

FOR IMMEDIATE RELEASE Jan. 18, 2019

Feedback sought for community health needs

During the next three months, Skiff Medical Center (soon to be known as MercyOne Newton Medical Center) and the Jasper County Health Department will be partnering to prepare a 2019 Jasper County Community Health Needs Assessment (CHNA). The goal of this CHNA project is to understand progress in addressing community health needs cited in the 2016 CHNA report and to collect up-to-date community health perceptions. In addition, ACA legislation requires all taxexempt hospitals to submit a CHNA to the IRS every three years.

To accomplish this work, a short online survey has been developed. The survey link (https://www.surveymonkey.com/r/JasperCoIA_CHNA_2019) is available at www.skiffmed.com and www.facebook.com/skiffmed, as well as the Jasper County Health Department website. VVV Consultants LLC, an independent research firm from Olathe, Kan., has been retained to conduct this community-wide research.

According to Chad Kelley, Ancillary Services Director at Skiff, CHNA is a valuable tool for hospital leaders. "It is an excellent way to plan, assess and respond to health-care needs for those we are privileged to serve," he said.

All community residents are encouraged to complete the CHNA online survey by Friday, Feb. 22.

"We hope that the community and health professionals will take advantage of this opportunity to provide input into the future of health-care delivery in our county," said Jasper County representative Becky Pryor.

In association with ongoing health-needs assessment, a community-wide town hall meeting will be held on Tuesday, March 19, from 11:30 a.m.-1 p.m. at the Newton DMACC Conference Center, Room 210. DMACC is located at 600 N. 2nd Ave. W. in Newton. If you have any questions about CHNA activities, please e-mail Skiff at pr@skiffmed.com.

Community-wide townhall to discuss local health needs

MercyOne Newton Medical Center (formerly known as Skiff Medical Center) and the Jasper County Health Department have partnered together to prepare a 2019 Jasper County (IA) Community Health Needs Assessment (CHNA). The goal of this project is to understand progress in addressing community health needs and to collect up-to-date community health perceptions. In addition, ACA legislation requires all tax-exempt hospitals to submit a CHNA to the IRS every three years. Vince Vandehaar, MBA, with VVV Consultants LLC, has been retained to conduct this community-wide research.

A community-wide Jasper County CHNA townhall working lunch meeting will be held Tuesday, March 19 from 11:30 a.m. to 1 p.m. in room 210 at the Newton DMACC Conference Center, 600 N. 2nd Ave. W. in Newton, Iowa. At this meeting, initial online survey results will be discussed and priorities established.

If you are interested in attending and sharing your community insight, please RSVP online at https://www.surveymonkey.com/r/JasperCo RSVP.

The RSVP link is also available at MercyOne Newton Medical Center's website (www.skiffmed.com) and Facebook page (www.facebook.com/mercyonenewton).

MercyOne Newton and Public Health wish to extend their appreciation to everyone participating in this important community feedback assessment. If you have any questions regarding CHNA activities, please e-mail MercyOne Newton Medical Center at pr@skiffmed.com.

Mental health care tops issues at Community Health Needs Assessment meeting

By Jamee A. Pierson Newton Daily News

Mental health care, including diagnostic, treatment and after care.

was the runaway issue that needs to addressed for those who attended Tuesday's C o m munity

Vandehaar

Health Needs Assessment (CHNA) town hall meeting. The issue re-

ceived 40 votes, 14 more than the next highest rated issue, substance abuse, from the more than 70 community and county members at the meeting at Newton DMACC.

"This is your town facilitator Vince Vandehaar said. "We want to hear everyone's opinions."

Hosted by MercyOne Newton Medical Center and the Jasper County Health Department, the town hall meeting is a part of the process to update the 2016 CHNA,

HEALTH | 2A

Health

Continued from Page 1A

a systematic collection. assembly, analysis and dissemination of infor-mation about the health of the community. A CHNA's role is to identify factors that affect the health of a population and determine the availability of resources to adequately address those

"Our three top needs last time (the CHNA was completed) were mental health, child abuse prevention and fall preven-tion," JCHD Administra-

tion, ICHD Administra-tor Beckp Pryor said.

Those in attendance answered two main questions - Are there health care services in your community neigh-borhood that you feel need to be improved and/or changed and what are the strengths. what are the strengths

contribute to health?

Beyond mental health are and substance care and substance abuse, the group named transportation to healthtransportation to health-care, lack of childcare, homelessness, domestic violence, lack of special-ty doctors and obesity as the top issues in the

as the top county. On the positive side, areas including emer-gency services, youth cooramming, availgency services, youth programming, avail-ability of resources, the school system and the amount of provid-ers in the county were strengths listed. The substrengths listed. The sub-stance abuse coalition, mobile crisis response team and appearance of strong community inter-est also were rated high for the area.

The answers provided by those at the town hall corresponded with data already collected by an online survey for CHNA. Mental health was once again a top concern rat-

ing red, or negative, for the county by the survey takers, along with the emergency room, family planning services. inpatient services and nursing homes. Rated green, or positive, are the county's ambulance services, school nurses, public health, pharmacy, outpatient services, eye doctors and chiropractors.

A comment from one survey taker said. "I believe we need more hours for specialty clinic, some doctors only come once a month." Another commented that a "detox unit is desperately needed" and another simply put "homeless popula-tion."

The showed 83 percent go outside of Jasper Coun-ty for care and while 46 percent believe officials are actively work-ing together to address nity health, 13

Business and community leaders attending the Community Health Notom half Tuesday at DMACC work in small groups to determine the community and areas that need to be worked on.

percent said they didn't know. Of those surveyed, 60

percent rated the over-all quality of healthcare delivery as good or very good. Thirty-two percent

percent said no and 40 rated it as average, 8 percent as poor and no one gave a very poor rating. As for what is causing poor health in the area, limited access to mental health ranked highest at 25 percent with poverty second at 22 percent and lack of awareness of existing local programs or providers at 17 percent. The county received

high rankings in opportunity to exercise at 81 percent and a low uninsured rate. Adult obesity has seen a 12 percent in-crease from 20 years ago along with a higher than average opioid prescrip-tion rate.
